

I'VE PUT YOU ON A PEDESTAL

BY ALMA DE LA ROSA

Cake Pedestal

- 1 With Pitch Black ink, stamp as many "Love Letters" as needed to make a pattern on the base of the Cake Pedestal. U the cloudy side of the Rub-Onz paper.
- 2 Color with colored pencils and use the Gamsol and the blending stubs to blend the colors.
- 3 Use the Pearlescent Orchid to stamp the same number of "Love Comets" as "Love Letters".
- 4 Follow the Rub-Onz directions to make your custom rub-ons. Apply to the base of the pedestal.
- 5 Apply at least 5 thin coats of Envirotex to seal the rub-ons for hand washing.

Cupcake Toppers

- 1 Use Versafine Black to stamp "Love Robot" on white paper. For each cupcake, stamp two images. With the Super Jumbo Punch to cut out a circle around the "Love Robot". About 1/8" from the edge of the circle draw a thin red line. Color the "Love Robot" with Spica Glitter Pens and the background with the blue marker.
- 2 Draw a "flagpole" from the right hand of the robot with the black pen on half the robots. On the rest of the robots draw the "flagpole" from the left hand.
- 3 Stamp the sentiments for the robots in Versafine Crimson Red &/or Onyx Black on the white paper. Cut them into strips and notch half of them into flag shapes on the left side. Notch the remainder on the right side.
- 4 Glue strips onto black paper and trim paper leaving a small border. Attach flags to the "flagpoles" on the right side.
- 5 Use the Mega Scalloped Circle Punch to cut the circles from the red paper. Dot the inside of each scallop with the gel pen, front and back. With foam tape, attach the "Love Robots" with "flags".
- 6 Adhere two strips of foam tape to the back of the red circles leaving a small channel between them. (If your skewer is thick, you may have to double the layer). Run a bead of Zip Dry Glue in the channel and place your skewer between.
- 7 Attach the remaining "Love Robots" to cover the skewer and attach the "flags" lining them up with the flags on the front. Insert into cupcakes.
